No. The passport remains the horse's official identification document. Vitae accompanies it.

Who sees my horse's record?

You, the studbooks you send entries to, and people you share a link with. Vet records are shared on request by default.

What happens when I sell the horse?

The book goes with the horse. Private entries stay with you unless you choose to hand them over.

Is my studbook on Vitae?

Check at vitae.horse. If it has not joined yet, you can ask it to there.
